# Disclaimer

The materials contained herein (the "Materials") have been prepared by Eurasia Drilling Company Limited (the "Company") and its subsidiaries and associates (the "Group") solely for use at presentations in February 2011. By accepting the Materials or attending such presentation, you are agreeing to maintain absolute confidentiality regarding the information disclosed in the Materials and further agree to the following limitations and notifications.

The information contained in the Materials does not purport to be comprehensive and has not been independently verified. The information set out herein is subject to updating, completion, revision, verification and amendment and such information may change materially. The Company is under no obligation to update or keep current the information contained in the Materials or in the presentation to which it relates and any opinions expressed in them are subject to change without notice. The Company and its affiliates, advisors and representatives shall have no liability whatsoever (in negligence or otherwise) for any loss whatsoever arising from any use of the Materials.

The Materials are strictly confidential and do not constitute or form part of, and should not be construed as, an offer, solicitation or invitation to subscribe for, underwrite or otherwise acquire, any securities of the Company or any member of the Group nor should they or any part of them form the basis of, or be relied on in connection with, any contract to purchase or subscribe for any securities of the Company or any member of the Group or global depository receipts representing the Company's shares nor shall it or any part of it form the basis of or be relied on in connection with any contract or commitment whatsoever. This document is neither an advertisement nor a prospectus. The Materials have been provided to you solely for your information and background and are subject to amendment. The Materials (or any part of them) may not be reproduced or redistributed, passed on, or the contents otherwise divulged, directly or indirectly, to any other person or published in whole or in part for any purpose without the prior written consent of the Company. Failure to comply with this restriction may constitute a violation of applicable securities laws.

The Materials are directed only at (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, (the "Order") or (ii) high net worth entities, and other persons to whom they may lawfully be communicated, falling within Article 49(2) of the Order (all such persons together being referred to as "relevant persons"). Any investment activity to which the materials relate is available only to, and will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on the Materials or any of their contents.

Neither the Company's share nor global depository receipts representing the same have been, nor will they be, registered under the U.S. Securities Act of 1933, as amended, or under the applicable securities laws of Australia, Canada or Japan. Any such securities may not be offered or sold in the United States or to, or for the account or benefit of, US persons except pursuant to an exemption from registration and, subject to certain exceptions, may not be offered or sold within Australia, Canada or Japan.

No representation or warranty, expressed or implied, is made by the Company and any of its affiliates as to the fairness, accuracy, reasonableness or completeness of the information contained herein and no reliance should be placed on it. Neither the Company nor any other person accepts any liability for any loss howsoever arising, directly or indirectly, from reliance on the Materials.

The Materials include forward-looking statements which are based on current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about the Company and its subsidiaries and investments, including, among other things, the Group's results of operations, the development of its business, trends in the oil field services industry, and future capital expenditures and acquisitions. In light of these risks, uncertainties and assumptions, the events in the forward-looking statements may not occur. Neither the Company nor any other member of the Group undertakes to publish any revisions to any forward-looking statements to reflect events that occur or circumstances that arise after the date of the Materials. In particular, we note that, unless indicated otherwise, the market and competitive data in these Materials have been prepared by REnergy CO ("REnergy"). REnergy compiled the historical data presented in these Materials from a variety of published and in-house sources, including interviews and discussions with market participants, market research, web-based research and competitor annual accounts. REnergy compiled their projections for the market and competitive data beyond 2009 in part on the basis of such historical data and in part on the basis of their assumptions and methodology. In light of the absence of publicly available information on a significant proportion of participants in the industry, many of whom are small and/or privately owned operators, the data on market sizes and projected growth rates should be viewed with caution.

The Materials are not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction. The Materials are not for publication, release or distribution in Australia, Canada, Japan or the United States.

# Legacy output is deteriorating...

Russia Brownfield Oil Production, mln bpd

Y-o-Y Decline in Brownfield Production in 2010

Source: Troika Dialog

- Legacy output (Brownfield production) in Russia has been deteriorating since 3Q-08;
- The industry has lost **≈320 kbpd** in Brownfield production in 2½ years;
- The most profitable integrated oil companies in Russia show the highest decline rates on legacy production;
- Brownfield production defined as Russia total output minus PSA production, Gazprom and Novatek condensate volumes, TNK-BP Uvat & LUKoil Naryanmarneftegaz oil production and the three East Siberian oil fields currently producing significant volumes.

### Average Well Depths (MD) Onshore Russia (Drilled by BKE)

Source: Company data

# Russian market

- Total meters drilled onshore Russia in 2010 were **18%** above 2009 levels.
- As per REnergyCo, demand for drilling is expected to grow approx. **9.4%** per year, to over 20 million meters by 2012
- Based on current drilling rates, and including certain efficiency improvements, the onshore rig fleet in Russia may be nearing **1,100** active rigs by 2013
- Rig demand and E&P capex growth rates will be faster in Greenfield areas, where drilling is more complex and penetration rates are lower

# Customer diversification

## 2010 EDC Drilling Volumes

## 2009 EDC Drilling Volumes

## Contract Developments

- In 2007 (EDC's IPO year) our major client accounted for 77% of total meters drilled
- Continuous efforts to diversify our customer base have resulted in an increase in share of **non-Lukoil customers to 43%** in total meters drilled
- **1,762 thousand meters** were drilled for non-Lukoil customers in 2010; 28% above 2009
- In 2009 we began work for four new clients in Russia, including RussNeft and Samara-Nafta
- In 2010 we won important contracts for drilling with TNK-BP, PechoraNeft and Rusvietpetro
- Recent Schlumberger acquisition will further increase the share of non-Lukoil customers in our portfolio from 2011

## EDC Capital Expenditures

Note: Purchases of property, plant and equipment as set forth in EDC's audited consolidated statements of cash flows for the years ended 31 December 2005, 2006, 2007, 2008 & 2009

<sup>1</sup> Includes cash committed in 2008 for equipment delivered in 2009

<sup>2</sup> 9m10 (unaudited)

## EDC's Rig Fleet

- In 2010 EDC ordered **5 new rigs** with completion times commencing early-2011 for prospective onshore operations outside of the CIS, plus **2 rigs** (delivered 3Q10) for our operations in Russia
- EDC ordered 24 additional rigs for 2011-2012 delivery as fleet replacement/upgrade/growth

### Russian Fleet Age

### EDC Fleet Age

Source : Douglas Westwood (2009), Company estimates

# Growth opportunities

- Acquisition of Russian land drilling/workover businesses
  - Asset swap between EDC & Schlumberger announced in Oct-10
  - EDC active participant in Slavneft and Gazpromneft divestitures of their in-house drilling and well service divisions
- Entry & expansion into other geographic markets
  - Actively looking at other CIS countries
  - Pursuing Middle East possibilities; initially Iraq
- Asset additions for the Caspian jack-up market
  - Currently three jack-up rigs active in the Caspian; demand by 2013 expected to be 6 to 7 rigs
  - Lamprell contracted by EDC to build Super 116E J/U for 2013 delivery
  - EDC recently announced negotiation with Transocean to acquire *TRIDENT XX*, currently on long-term contract in the Caspian
  - Additional opportunities to grow EDC's J/U fleet are being explored

Q&A

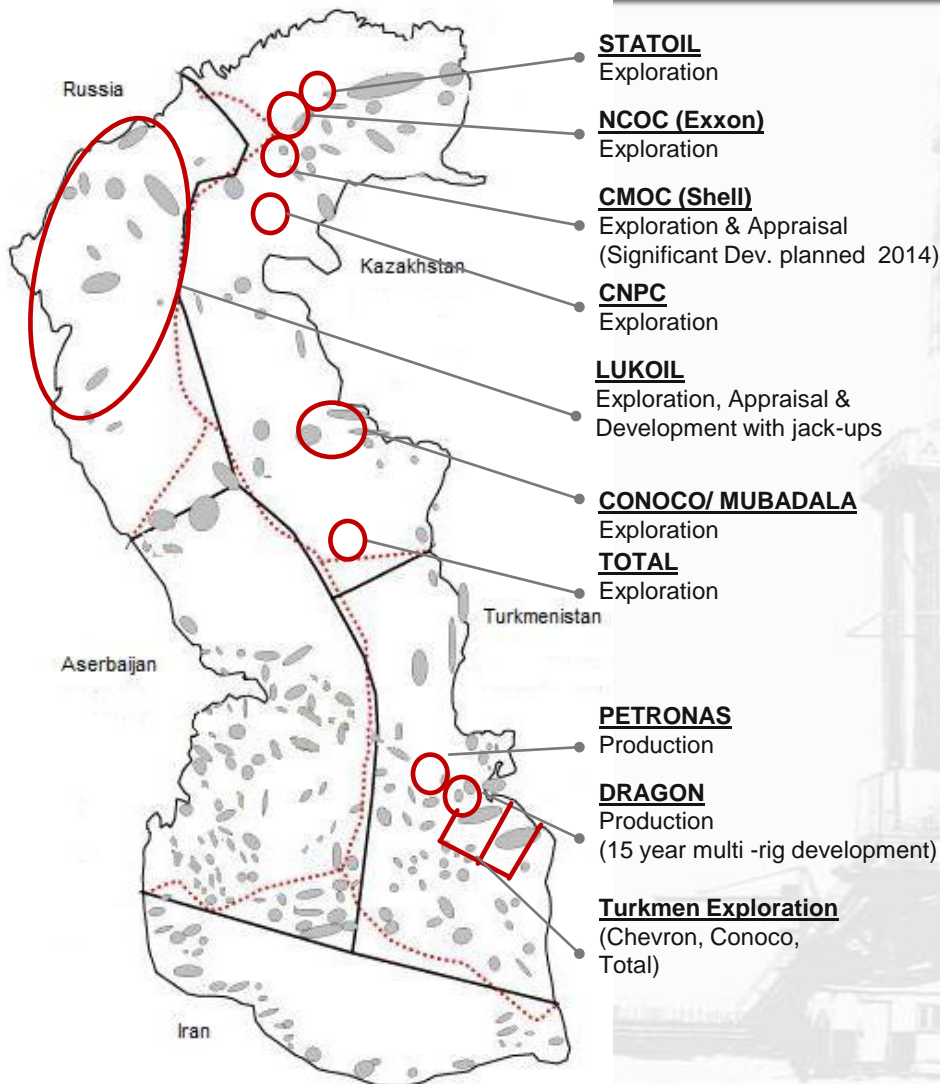

# Growth opportunities: Strategic Alliance with SLB

- Transaction with Schlumberger announced late 2010:
  - EDC transfers NTS assets (cementing, DD/telemetry and drilling fluids) and crews (24 cementing, 57 DD/telemetry & 50 drilling fluids) to SLB
  - SLB transfers Drilling (17 + 2 rigs, 12 crews), Workover (34 rigs, 25 crews) and Sidetracking (23 rigs, 20 crews) to EDC
  - Strategic Alliance formed with SLB as preferred supplier of drilling services to EDC for 5 years
- Total value of transaction approx. US \$260 million
  - Assets transfer, plus cash consideration from EDC to SLB
  - Anticipated closing late first quarter 2011
- Projected 2011 EBITDA approx. US \$75-80 million
  - Drilling output c. 570k meters (2010), approx. 3.5% market share
  - 20 Sidetracking crews plus existing EDC capability (currently 7 crews) gives us the largest sidetracking offering in Russia
  - Primary clients include Rosneft (Drilling & S/T), TNK-BP (W/O & S/T) Gazpromneft (S/T) and Lukoil (S/T).

Q&A

# Growth opportunities: Caspian Sea jack-up market

## Demand for jack-ups growing in all Caspian sectors served by EDC:

- In the Russian sector, Lukoil has made a number of discoveries and has several appraisals/prospects to drill
- Numerous blocks are in exploration phase in Kazakh waters, and some developments are being planned
- Offshore Turkmenistan is currently in development phase using jack-ups off small platforms. Additional exploration blocks are being looked at by numerous potential operators

## EDC actions to address demand:

- Nov-10 contract with Lamprell Plc to build a new jack up, expected to be completed early 2013
- Jan-11 announced negotiations to acquire *TRIDENT XX* from Transocean
- Looking at other options for additional jack-up and shallow-water rigs

<b>Growth Potential</b>
Summary
Q&A

# Growth opportunities: Middle East (Iraq)

EDC Overview
Investment Case
EDC's Position
<b>Growth Potential</b>
Summary
Q&A

## Iraq opportunities

- Iraq, holder of the world's third-largest oil reserves, aims to increase crude production to 6 mln barrels a day by 2015
- Licenses awarded by Iraqi government include (but not limited to):
  - Shell & Petronas (Majnoon)
  - BP & CNPC (Rumaila)
  - Eni SpA-led group (Zubair)
  - Exxon and Shell (West Qurna 1)
  - Gazprom Neft, Kogas, Petronas & TPAO (Badra)
  - Total and Japanese firms (Azadegan)

- **West Qurna 2 field** (Lukoil and Statoil) estimated recoverable reserves are 12.9 bn bbl; PPT is 1.8 mn bbl/d
- 500 wells to be drilled during the license period of 20 years
- Drilling is expected to start in 2011 and 1<sup>st</sup> production at the end of 2012
- Total investments are expected to be approx. US \$30 billion

# 2011 Outlook

## Update for 2010

- 2010 another record year for EDC with 4,102 th. meters drilled onshore; +9.3% y-o-y
- Total revenue for 2010 expected at approx. US\$ 1.79 billion, EBITDA margin of 24.1%
- 2010 results will be released in the second half of April 2011

## Onshore Drilling and Workover

- Onshore drilling volume forecast is approx. 4.8 million meters for 2011 including SGK contribution
- Client mix in 2011 is expected to diversify further through growth with TNK-BP & Rosneft; LUKOIL's share in EDC's total drilling volumes is projected to be approx. 54%
- Strong Workover and Sidetrack activity expected in 2011 with addition of SLB assets & further integration of W/O assets acquired from LUKOIL in early 2010
- Pricing in ruble terms for the year should be up slightly from 2010
- By end 2011, EDC will be the largest provider of Drilling, W/O and Sidetrack services in Russia

## Offshore Drilling

- The *ASTRA* jack-up rig is currently committed for a full 12 month program in 2011
- Operations on Lukoil's Yu. Korchagin field platform are expected to continue throughout the year
- Construction of new Super 116E jack-up drilling rig is proceeding as planned and the rig is expected to begin operations in early 2013
- The acquisition from Transocean, if agreed, is anticipated to close within the first quarter. With the addition of the *TRIDENT XX* to our fleet, by the end of the year the Company will have built a significant presence in the Caspian Sea

<b>Summary</b>
Q&A

# Key strategic focus

## Increase market share

- Continue to invest in expanding our fleet, implementing state-of-the-art technology and enhancing service quality;
- Targeting acquisition of one or more in-house drilling companies;
- Integrate recently acquired drilling assets from Schlumberger.

## Growth of customer base

- Continue to differentiate ourselves from our competitors in our domestic markets;
- Aggressively target new international markets in the Middle East, initially Iraq;
- Evaluate our opportunities outside of Russia and the CIS.

## Expansion in offshore drilling

- Engage with expanding customer base to forge long-term relationships;
- Commission new offshore drilling assets to tie-in with anticipated new contracts;
- Develop offshore extended reach drilling capability.

## Expand & improve workover capacity

- Conclude the integration of newly acquired businesses in West Siberia and Timan Pechora within existing workover structure;
- Target selected acquisitions of additional workover capacity.

## Broaden technology platform

- Expand and improve core drilling service offerings in advance of divestiture;
- Leverage strategic partnership with global technology leader Schlumberger to win additional work.
